PEKING IS LATE.

The City of Peking did not leave Shanghai until July 13. This means that she will be at least three days late in reaching here on her way to San Francisco.

## TAKEN AS A TRANSPORT

NEW STEAMER CALIFORNIAN ARRIVES.

Was Chartered Immediately After Her Trial—One of the Largest and Best Tramps Afloat.

The new tramp steamer Californian was chartered by the Government immediately after her trial trip, and she arrived here this morning on her way to the Philippines with army stores, being on her first voyage. The Californian had a trial trip with freight aboard just before she left for Honolulu on the 17th of this month. She behaved splendidly, and has kept up the same record ever since. The run from San Francisco to Honolulu was made without a stop at about ten and a half knots speed, the vessel blowing up at noon yesterday to avoid arriving here during the night. She was sighted from Koko Head shortly after four o'clock.

The Californian is in command of Captain Morrison, who came from New York to take charge of her when she was launched at the Union Iron Works, San Francisco. She is one of the largest and best tramp steamers in the world, having cost half a million dollars. She is one of four such vessels being built by the Hawaiian-American line, to run from New York to San Francisco and Honolulu. It was the intention to have the service at once, but the Government took the Californian when she was ready for sea, and the steamship company will have to postpone its contemplated new service.

With the exception of the Alcoa, the Californian is the largest tramp that ever came here. She can carry about 10,000 tons of freight by measurement, and 8,500 tons dead weight. She is 435 feet long, 51 feet beam and 30 feet deep. Her trial speed was 11 knots. Her gross register is 4,597 tons.

Some of the officers of the Californian are well known here, having been to Honolulu on other steamers. Chief Engineer W. Chisholm and First Assistant R. Donaldson were both in the Senator, and Second Assistant Lasswell was in the Australia for some years. Frank Turner fills the berth of chief officer. E. M. Huie is the quartermaster's clerk on board, and A. J. Smith is the necessary clerk. After taking about 300 tons of coal here the Californian will leave for Manila. She has about 4,000 tons of stores on board. The big steamer is at the end of the Pacific Mail wharf.

CORONER'S JURY.

E. Paris, Frank Kruger, D. G. Camarinos, H. Walker, J. McInerney and W. Blaisdell were called as jurors yesterday in the case of the native Enoka, killed while working at the schooner Robert Lewers. They found that death was accidental.

THANKS TENDERED.

Mrs. Martha Colburn wishes to thank the ladies and many good friends who so kindly gave her the invalid chair of which she has just been the recipient.

MR. REYNOLDS' MISSION.

Will Round Up Patients on Hawaii for The Molokai Settlement.

C. B. Reynolds' trip to Hawaii is more important and particular than many suppose. For two or three years there has been complaint that arrest of persons who should go to Molokai was not being properly attended to by deputy sheriffs. The marshal of that time explained that some of the deputy sheriffs were related to patients, and for various reasons were probably intentionally lax in enforcing the law. It was a problem to handle in view of all the circumstances.

Mr. Reynolds' purposes going all around and gathering up all the patients to be heard on the Island. They will be sent to Molokai as fast as possible. Most of them will, of course, have to come to Kalihl for examination. It is not supposed that there are a great number at large on the big island though their exact situation is not positively known.

SPRAINED AN ANKLE.

Robert Carlisle, formerly a hackman and lately a barkeeper at the Anchor saloon, was thrown from his bicycle on King street late yesterday, and sustained a seriously sprained ankle. He was taken to the hospital and will be laid up for some days.

ADMITTED TO BAIL.

The hackman who ran over Horace Crabbe at the corner of King and Bethel streets, has been admitted to bail in the sum of \$500. The case will not be tried in the District Court until the injured man is well enough to tell his story.

AMERICAN SENSITIVENESS.

The sensitiveness of Americans over the naturalization of their nationality in foreign countries must surpass that of any other people. Only on this territory can you account for the attention given to the naturalization as a British subject of the son of the late Marshall O. Roberts of New York. The young man had been reared in England, he intends to live there, and his mother had taken an English colonel for a second husband, so that he had every reason for changing his allegiance. Yet the Chicago papers not only had the cable-telegram from London, but specials from New York giving the Roberts family history.—Springfield Republican.

SPENT A GOOD FARM DOCTORING.

Mr. A. N. Noel of Asherville, Kans., says he spent a good farm doctoring himself for chronic diarrhoea, but got no relief and was afraid he must die. He changed to get hold of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy and was permanently cured by it. For sale by all dealers and druggists. Benson, Smith & Co., general agents, Hawaiian Islands.

## Alsen Portland Cement

WE HAVE JUST RECEIVED a large shipment of this celebrated Cement, which is the STONGEST AND MOST SERVICEABLE CEMENT MADE, and will permit the admixture of a larger amount of sand or gravel, with less loss of strength, than any other brand; it is therefore the most economical. ALSEN has no equal in color, fineness and sand carrying capacity. It weighs less per bushel, measuring about 10 per cent more cement to a barrel than other brands, which very materially reduces its cost as compared with other cements is therefore an economical cement to use, and specially adapted for fine concrete work.

The following tests, made in actual work by Col. D. C. Houston, Corps of Engineers, U. S. A., at the seawall around Governor's Island, New York Harbor, has never been equaled by any other cement. It is as follows: Tensile strength per square inch—One day, 384 pounds; seven days, 600 pounds; thirty days, 818 pounds.

For sidewalks it gives the best color and the most durable wearing surface. A few of the large contracts in which Alsen Cement was used: Cable R. R., Baltimore, 35,000 barrels; Quebec Harbor Improvement, 20,000 barrels; Northern Pacific R. R. bridges, 20,000 barrels.
